Build Custom Regions Out of Counties

http://www.hoosierdata.in.gov/custom_profile.asp

Custom Region Builder

A variety of economic and workforce regions are provided with our data, but you may need to construct your own set of counties into a region. Just select the counties you want using the map or the dropdown list. You have the option of naming your region (if you do, it will save it as a cookie so you can use it in the future). Then click on Get Profile and the data will be aggregated to your new region.

County Select List
Adams
Add County ->

Optional Region Name
(no spaces permitted):

Region Counties

Delete
Clear

Delete: removes highlighted entry from your list
Clear: clears out all entries

Get Profile: aggregates the data for you and displays on the screen
Create Business Reports based on a radius

Indiana Business Environment Radius Profiles

This profile gives an overview of the business environment for a radius around the selected point. It only includes estimates for Indiana companies.

1. Select a Location
Enter an address, zip code, city or click a location directly on the map.

2. How Big Do You Want the Radius?
Small radius searches return results faster.
Number of Miles: 2

3. Get Profile

Industry Sector
Top employers, employment and establishment by major industry, and leading companies by sales value.

Establishment Size
Employment and establishments for 6 size classes.

Industry Sub-Sector
Top employers, employment and establishment by sub-sector, and leading companies by sales value for a single sector.

Select a sector:
Wholesale Trade (42)

Your profile will appear at bottom of page, so please scroll down after clicking a “Go” button.
Cost of Living Index Calculator

The Calculator uses continuously updated data pulled directly from the highly regarded ACCRA Cost of Living Index to make cost comparisons. Put in a dollar amount, choose the “from” city from anywhere in the nation, select an Indiana “to” city and click on the calculate button to view the cost comparisons.

Enter a Dollar Amount($) to Compare 100000

## Labor Force

An area’s labor force provides insight on the availability factor and is residence-based—that is, the people are working or seeking work and reside in the particular county or region.

Mapping Innovation
The Index

Measuring Innovation
Click on the chart to drill down to more graphics and the underlying data.
The index incorporates a mix of input measures that characterize the place and its people (accounting for 60 percent of the overall index score) and output measures that characterize its economic success (40 percent of the overall score). The state context category is provided for reference, but is not part of the broader index. Learn more about the index weighting and its components.

Inputs and Capacity
The ability of the population and labor force to innovate is captured in 2 component indexes that include inputs into local economies.

Human Capital
- U.S.
- Atlanta-Sandy Springs-Marietta GA Metro
- Custom Region

Economic Dynamics
- U.S.
- Atlanta-Sandy Springs-Marietta GA Metro
- Custom Region

State Context
A measure of the resources available in a state to entrepreneurs and businesses.

Productivity and Employment
- U.S.
- Atlanta-Sandy Springs-Marietta GA Metro
- Custom Region

Economic Well-Being
- U.S.
- Atlanta-Sandy Springs-Marietta GA Metro
- Custom Region
Leading Index

Leading Index for Indiana, January 2010 to January 2011
