U.S. Census Bureau
• Background
• New and upcoming developments
• Going forward together
The Local Employment Dynamics Data Sharing Partnership

Unique state-federal data sharing partnership
- Leverages existing data to create a new integrated business and household frame
- Create innovative new data products produced from the new frame
Enormous growth in the partnership in the last decade

- Only 2 states (IL, MD) in 2000.
- Eight states in 2002.
- Term 'LED partnership' coined in 2003
- 18 states by 2005.
- 50th state, NH, signs in 2010

New data products
- QWI first released in 2002 (called EDE in beta version)
- OnTheMap first released in 2006
Two Public Use Data Products

Starting wages college educated men in high-tech industries in CA

Quarterly Workforce Indicators (QWI)

- Employment
- Job Creation/Destruction
- Wages
- Hires
- By detailed geography and industry as well as worker characteristics.
OnTheMap

Welcome to OnTheMap!

Start an analysis by using one of the tools below (Search, Import Geography, or Load .OTM file). Hover over the help icons located throughout the application to see help tips for using specific functionality. Sections in the control panel can be collapsed or opened by clicking the section title.

Read New Data Notice (02/21/2012)

Search

Search All Names

Import Geography

- Import from KML
- Import from SHP
- Import from GPS

Load .OTM File

Click the "Load" button below to load a .OTM file.

Load
OnTheMap

- Shows where workers live, where they work (this map shows where residents of Vancouver, WA work)
- Partially synthetic data product, worker characteristics (including residence geography) are synthesized
- Characteristics of jobs and workers by locations
- By industry and worker characteristics
Newly Released and Upcoming Developments
New Releases in 2011: QWI and OnTheMap by Race and Ethnicity and Education

Six race variables
- White alone
- Black or African American Alone
- Asian Alone
- Native Hawaiian or Pacific Islander Alone
- American Indian or Alaska Native Alone
- Two or More Races

And two ethnicity variables
- Hispanic or Latino
- Not Hispanic or Latino

And for workers 25 and older, by four education classes
- Less than a high school diploma
- High school graduate, no college
- Some college or associates degree
- Bachelor’s degree or greater
Local Employment Dynamics

Educational Attainment
In the Wasatch Front North Area

By: Edmondations

A relatively new source of information on individuals in Utah, the Local Employment Dynamics (LED) data, is now available, and in this inaugural edition of Local Insights we will take a deep look at some of this data. This issue will address different aspects of the educational attainment of workers in the three-county Wasatch Front North Service Area. This data captures information by a number of different characteristics of the economy. We will study educational attainment by the number of sectors, the industry to which and wage differences according to gender. Information from 2000 to 2010 is included in the analysis.

For better understanding, here is a quick note about the data: Information on educational attainment reflects individuals 25 years old and over, so data on youth is not included because they are generally not old enough to have achieved the levels of educational attainment included in the information. This information is specific to workers on payrolls. Data by industry is fairly comprehensive. It covers nonfarm employment in the area with the exclusion of federal and state government data.

Graph 1: Educational Attainment 2000-2010

- Less Than High School
- Some College/Associate
- High School
- Bachelor’s or Higher

Graph 2: Educational Attainment by Major Employing Industry, 2010

- Prof./Scient./Tech.
- Educational Services
- Healthcare
- Manufacturing
- Admin. & Support
- Retail Trade
- Construction
- Accomm. & Food Serv.

Source: U.S. Census Bureau; Local Employment Dynamics program.

Declines in manufacturing employment largely impacting high-school graduates and those with some college, far fewer declines in very low and high skill employment.
Coming in mid-2012: QWI by Firm Age and Firm Size

Detailed employment and wage information by national age of firm (5 age classes)

- Start-ups
- Young firms
- Established firms (including new establishments in established firms)

....And by size of firm (5 size classes)

- Small businesses
- Medium-sized businesses
- Large firms (including smaller establishments of large national firms)
Startup firms have higher rates of job creation, but also higher churn

New Firm Hires
New Firm Separations
Older firm Hires & Separations

Hire and separation rates by firm age, 40 state average
Coming in mid-2012: QWI and OnTheMap Federal Employment

Federal Workers are not in state UI data and those jobs have been unavailable in previous releases of QWI and OnTheMap.

- Federal jobs will be included in a subsequent release for OnTheMap
- A limited time-series QWI for federal workers will be rolled out state-by-state (DC one of the first) starting this spring.

Upcoming Products
Coming Soon with QWI Online

- Cutting Data tool
- QWI Explorer tool
- Access to all QWI’s 32 data fields
- Enable comparisons across geography, time, and other characteristic groups
- Flexible charting and thematic mapping functionality
- Simplified user work flows and improved help documentation
- QWI Rankings and QWI Aggregations

QWI Online [NAICS]

Select a state from the following table to access NAICS-based statistics. Click here to access BLS-based statistics. While NAICS series continue to be updated on a quarterly basis, the BLS-based QWI ceased to be updated as of the 2009Q3 data update. If a state does not have an active link, it means either it is a new partner whose data are being processed or it is not a partner in the voluntary Local Employment Dynamics (LED) partnership (state names in italics).

- Technical Paper No. TP-2006-01
- The LEHD Infrastructure Files and the Creation of the Quarterly Workforce Indicators (PDF, File Size: 768KB)
- Data: January 2006, Author(s): John Alonso, Bryce Stephens and Lars Villhuber

• Detailed QWI Definitions (PDF, File Size: 27KB)
- Data: January 2006, Author(s): John Alonso, Bryce Stephens and Lars Villhuber
• Generalized QWI Definitions (PDF, File Size: 28KB)

The year and quarter number below each state indicate the latest complete update for that state.

Job-to-Job Flows

Job Changing Rates are Declining, Especially Among Young Workers

Share of workers changing jobs each quarter

- <= 20 years of age
- 21-30 years
- 31-40 years
- 41-55 years
- 56-65 years
- >65 years
Top Destination Industries for Workers Separating from Jobs in NAICS 236, Construction of Buildings

- 238 Specialty Trade Contractors, 19%
- 287 Heavy & Civil Engineering, 5%
- 722 Food Services, 3%
- 541 Prof, Sci, & Engineering Services, 4%
- 561 Admin & Support Services, 14%
- 236 Construction of Buildings, 25%
To sum up:

There are several new and upcoming elements to QWI and OnTheMap, and new data products in development

- Newly available data on race, ethnicity, and education.
- QWI by firm age and size made available in mid-2012.
- OnTheMap including federal workers to be released in mid-2012.
- Limited QWI time-series with federal workers to be released on state-by-state basis starting 2012.
